EXPERIENCE

Analytics Vidhya

July 2025 - Present

Software Development Engineer 1

Gurugram, India

- Contributing to **Mentornaut**, a B2B AI-powered chatbot system designed to assist end-users of client companies by acting as a domain-specific **mentor** and product recommender.
- Integrated chatbot with **custom-trained models** or **RAGs** using company-specific datasets to provide intelligent responses and relevant product suggestions.
- Developed key backend features like chat flows, data handling, and **API integration** to improve chatbot **performance and accuracy by 10%**.

Analytics Vidhya

January 2025 - June 2025

SDE Intern

Gurugram, India

- Developed the backend for the **Free Courses CMS** using **Django** and **Rest Framework**, enabling other team to upload and manage course content dynamically. Added **Draft** validation, image checks using **semaphores**, and course filters via **APIs**.
- Implemented **Brahma**, a user activity tracking system using **FastAPI**, to capture IP, location, user-agent, and source platform via session IDs. Used **SQLAlchemy** for DB operations, **GeoIP** for location mapping, and **Celery** with **Kinesis-S3** for async data storage.
- Built a **User Filtering** system using **Django** to manage unsubscribed users for **500+** internal users. Tracked **unsubscribe** actions and updated user status in **PostgreSQL** for accurate analysis.

SKILLS

- Languages:** C++, Python, Java, MySQL
- Frameworks:** Django, REST Framework, GraphQL, React.js, Node.js
- Libraries:** Django ORM, Celery, GeoIP2, Pydantic, SQLAlchemy, Requests, JSONSchema
- Developer Tools:** Git, GitLab, Grafana, Postman, Jenkins, VS Code
- Coursework:** System Design, Data Structures & Algorithm, Operating System, OOPS, DBMS
- Soft Skills:** Time-Conscious, Team-Oriented, Analytical Thinking, Decision-Making, Resilient

PROJECTS

Placement Portal | MongoDB, Express.js, ReactJS, Node.js, Javascript, Tailwind

May 2024

- Developed a placement portal using the **MERN** stack, empowering placement coordinators to post and manage job listings based on student eligibility.
- Enabled **50 students** to apply for jobs, explore opportunities, and view listings simultaneously.

Fruits & Vegetables Recognition | TensorFlow, Keras, CNN Model, Google Colab

March 2024

- Implemented a **Convolutional Neural Network** model to recognize more than 36 types of classes.
- Attained an **accuracy of 93%** by training and validating **12,840** images of fruits & vegetables.

E-CookBook | React.js, Express.js, Node.js, MongoDB, Rest API, Javascript, Tailwind

March 2024

- Built a food recipe finder web application by using **Edamam API** for finding recipes on searching.
- Integrated two filter options for **12 health-labels** and **7 diet-labels** for enhancing user experience.

EDUCATION

National Institute of Technology Patna

May 2025

Bachelor of Technology in Electronics and Communication Engineering

CGPA - 8.04

DAV Public School Cantonment Area Gaya

April 2020

Intermediate (12th) - CBSE

Percentage - 94.0

DAV Public School Cantonment Area Gaya

April 2018

Matriculation (10th) - CBSE

Percentage - 95.4

CODING PROFILES

- [CodeChef](#) - **4 Star** with **Max Rating: 1818**.
- [Leetcode](#) - **Knight** with **Max Rating: 1856**.
- [Codeforces](#) - **Pupil** with **Max Rating: 1350**.
- [GeeksForGeeks](#) - **Solved over 600 problems**.

ACHIEVEMENTS

- Achieved a rank of **108 out of 26,446** in the **CodeChef Starter 115** contest. [Link](#)
- Secured a rank of **1391 out of 22,688** participants in the **Leetcode Weekly 383**. [Link](#)
- Ranked **3,224 among 30,822** participants in **Hello 2024** contest on Codeforces. [Link](#)
- Placed **256th** All India Rank among 5,834 participants in **GFG Weekly Contest - 136**. [Link](#)
- Scored **95%** in the NPTEL course "**The Joy of Computing with Python**" placing in **top 1%**. [Link](#)
